EDUCATION

UNIVERSITY OF TRANSPORT TECHNOLOGY

| **2020 - ?**

INFORMATION TECHNOLOGY / NODEJS DEVELOPER

I am a fourth year student at University of Transport Technology, majoring in Information Systems, Faculty of Information Technology.

SUMMARY

I have a strong foundation in backend development, with JavaScript being my primary language of choice. I have experience using Node.js and the Express Framework, working with both SQL databases (SQL Server and MySQL) and NoSQL databases (MongoDB),working with ORM (Sequelize, Mongoose), write interface in reactjs. I have also explored deployment using tools like Vercel and Docker.

PROJECTS

SALES WEBSITE (OBERI-SHOP) | **Your team size: - 1 member**

NODEJS (EXPRESS), MONGODB

PROCESSING LOGIC, DEPLOY VERCEL, DATABASE DESIGN, ADMIN PROCESSING
This project is an e-commerce website specializing in mechanical keyboards and related products. The website offers a convenient and reliable shopping experience for customers looking to purchase new mechanical keyboards or upgrade their existing devices.
Link demo API : https://orebishopping-backend.vercel.app/api-docs/

SCHEDULE OF MEDICAL EXAMINATION | **Your team size: - 1 member**

NODEJS (EXPRESS), REACTJS, MYSQL

BUILDING USER INTERFACES ,PROCESSING LOGIC, DATABASE DESIGN, ADMIN PROCESSING
This project is a website that helps users easily schedule appointments with healthcare professionals, doctors, and medical facilities in their area. The website provides convenience and time-saving for users, enabling them to efficiently manage their healthcare schedules.

SKILLS

- Nodejs: (node's threading, process signals, modules, file system, yarn, npm, etc...): proficient

- JavaScript: (Promise, async-await, callbacks, event handlers, validation and sanitization etc...): moderate

- Express:(Routing, Request and Response Objects, View Engine(ejs, handlebars),RESTful APIs,Security Middleware,

  Microservices, etc...): moderate

- SQL (Sql Server, Mysql) : moderate

- NoSQL (Mongodb): basic

- Authentication and authorization (JWT, cookie, session, local storage): basic

- React (Redux, State Management, API Calls, etc...) : basic

- Communicate with FE (Swagger): moderate

- Deploy: (Vercel, Docker) :basic

- GIT and GIT-HUB: basic

- Office informatics: basic

- Teamwork, Good communication
